

Compact, Rugged, and Reliable Handheld

TWO-WAY RADIO

Ultra Small, Lightweight

Measures only 3.78" H x 2.78" W x 1.14" D and weighs 9.6 oz.

High Power Transmitter

VHF: 5 or 2 Watt - UHF: 4 or 2 Watt.

Military Durability 810 F, IP 55

Guards against rain, dust, shock, vibration.

Up to 10 Channel Capacity

With its ultra small size, lightweight, and high power transmitter, the MURS 110 and UHF 110 commercial handheld two way radios are the ideal solution for your on-site and in-plant communications. At the push of a button, you can be in two places at once to communicate with multiple work groups, coordinate activities, or expedite customer orders.

These rugged and reliable portable radios will save you time and money by allowing your crew to work smarter and more efficiently with no air-time charges or monthly fees.

The MURS 110 and UHF 110 radios transmit directly radio-to-radio—no extra equipment required.

They're compatible with other equivalent portable radios, desk-top base station intercoms and wireless callboxes, and with virtually any other brand of two-way radio operating on the same frequency. So you can add other radios to the system as your needs grow.

Programmable Frequency and Privacy Codes - 26 VHF or 77 UHF codes and 158 privacy codes.

3 Programmable Function Buttons - Allows fast access to certain features.

Key Pad Lock Button - Prevents accidental activation of front panel buttons.

Large Speaker - Loud, easy-to-hear audio.

13 Hour Battery Life - Based on a 90-5-5 duty cycle.

Low Battery Alert • Battery Meter Indicator

Channel Scan - Allows easy monitoring of multiple work groups.

NOAA Weather Scan (VHF model only) - Monitor weather broadcasts to increase safety and stay informed.

Voice Inversion Scrambler Built-in - Adds a measure of security and privacy against casual eavesdropping.

Internal Hands-Free, VOX-Ready - For tasks requiring hands-free communications...uses standard audio accessories.

Call Tone Feature - Causes alert tone to sound in other radio's speaker...perfect for signaling others in noisy environments.

RSM-5X
Speaker Microphone with Rotating Spring Action Clip

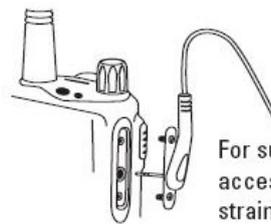

RHD-11X
Security Earset with Pendant Microphone, PTT and Clip

RHD-10X
Single Earbud with Pendant Microphone, PTT and Clip

RHD-12X
Behind-the-ear Earset with Boom Microphone, Pendant PTT and Clip

For superior durability, audio accessories feature a low-profile molded strain relief connector

Rugged Screw-on Accessory Connector - Customize with earbuds, headsets, speaker microphone.

Emergency Call Feature - Added safety and security.

FCC License-Free MURS Frequencies - The MURS 110 has 5 license-free channels available for use.

Each MURS IIO and UHF IIO radio includes: - Flexible Antenna, Lithium-ion Battery, Spring Action Belt Clip and Dual Slot Charger (2.5 HR) with 110-240 VAC, 47-64 Hz cube power supply.

These radios are designed for easy set-up and operation and can be field-programmed to meet your specific needs. They can be programmed to display as many as 10 channels, or just 1 channel if that's all you require.

For maximum compatibility you can choose from 26 operating frequencies in the VHF model and 77 in the UHF model. They also include 158 user-programmable Quiet Call privacy codes. Other useful features include channel scan, NOAA weather scan, voice scrambler, and hands-free VOX capability.

Also included is the Emergency Call Feature. With Emergency Call, when a programmable button is pressed, the radio will automatically transmit an alert call to all other radios on the same frequency and privacy code. The sending radio continues to transmit "hands-free" for 5 seconds after the emergency tone. This allows all other radios to automatically monitor for any message coming from the sending radio.

Coverage estimates:

At full power, line-of-sight, no obstructions the range is approximately 4+ miles. Indoor coverage at VHF is approximately 270,000 sq ft and 300,000 sq ft at UHF. Expect about 20 floors vertical coverage at VHF and up to 30 floors at UHF. Note: Range and coverage are estimates and are not guaranteed.

Applications:

Security • Schools • Construction • Retail Stores • Manufacturing/Warehousing
Special Events • Maintenance • Hotel/Motel/Property Management
